SHIPPING DELIVERY METHOD

STD Con-Way Deferred Con-Way Deferred ____Days
 Hold for pickup @ Con-Way Terminal Con-Way Guaranteed Other (Specify): _____

NOTICE:

The SwivelWheel System is shipped in three separate pieces to reduce the freight charges. Total weight is approx. 690 pounds, depending on the selected options. Delivery to a residence is usually not an option since the pallet removal requires a forklift. Also, trucking companies charge approx. \$85.00 for residential deliveries plus another \$85.00 for a lift gate truck. The drivers will not deliver from the street. Take this into consideration when selecting a ship to address. Please indicate the shipping address to be utilized. The system can be shipped to and held at the freight terminal dock for pick-up if desired. If requesting pick up at the freight terminal, the product must be picked up within one day of delivery to the terminal or a daily storage charge from the freight line may be accessed.
